\*A household of one means a child who is his or her sole support. Foster children are one-member households only if the welfare or the placement agency maintains legal responsibility for the child. Household is synonymous with family and means a group of related or unrelated individuals who are not residents of an institution or boarding house but who are living as one economic unit sharing housing and all significant income and expenses.

**Note:** This scale does not apply to households receiving food stamp or FDPIR benefits; or children who are recipients of CalWORKs or are enrolled and meet the low-income criteria of Head Start or Even Start. Those children are categorically eligible for free meal benefits.
